Dear friends,

ReMerge was created to provide an alternative to incarceration and to keep mothers in the community with their children instead of going to prison. We have outcomes that prove our program model is working to keep families together, save the state millions of dollars, and interrupt the intergenerational cycle of incarceration and poverty that exists in our state.

Our work brings attention to the need for continued criminal justice reform in our state, where our focus needs to shift from “tough on crime” to “smart on crime”. Oklahoma incarcerates women at 2 ½ times the national average, a staggering statistic that affects all of us as parents, citizens, and taxpayers. Our prisons are designed to lock up individuals who pose a threat to the safety of our communities; instead, they have become warehouses for individuals struggling with the need for mental health and substance abuse treatment. As we face a tough economic climate, let’s continue to talk with our legislators about using our tax dollars more wisely!

Thank you for being a critical player in changing the way Oklahoma does criminal justice. Your support continues to provide second chances for mothers and restore families in our community. The successes of the 91 strong and resilient women that have graduated ReMerge would not be possible without you and your commitment to breaking the cycle of incarceration.

Terri Woodland
ReMerge Executive Director

Before I entered the ReMerge program, my life was chaotic, full of drug use and criminal activity, and I paid no attention to my kids. I was full of fear. I grew up with an absent father and a mother that was in and out of prison. When I was introduced to meth, my whole world changed and I began hiding my emotions by getting high. It means the world to me that ReMerge helped me build up a solid support system because, before, I felt alone with no one on my side. Today I have many people around me that love me. They loved me before I knew how to love myself. Today I am a new woman, a new mother. ReMerge has taught me so many things: coping skills; what a healthy relationship looks like; how to find and keep a job; the importance of communication; and that I am worthy!

Today I have my family back. My kids live with me and I have learned to pay attention to them and love them wholeheartedly. We have so much fun together! They know that they can come to me and that I am always there for them. I am truly grateful that my community believes in second chances and that I was given the opportunity to become the mother that I am today.

-Ashley, ReMerge Graduate

COMMUNITY PARTNER SPOTLIGHT
Positive Tomorrows is Oklahoma City’s only elementary school specifically serving homeless children and their families. They meet homeless children’s unique needs and break down barriers to learning for them and their families so that they can break the cycle of poverty and transition successfully back into traditional schools. Positive Tomorrows provides transportation, three meals per day, basic necessities, school supplies, family case management, after school and school break programming, and more. Small classes and a trauma-informed learning environment ensure each child receives a differentiated education.

Positive Tomorrows provides an excellent educational opportunity for some of our ReMerge families as they move through the phases of the ReMerge program and transition from sober living to stable housing. Positive Tomorrows is a safe, supportive school for these families until they become more self-sufficient in our community. We appreciate Positive Tomorrows and look forward to a continued partnership as we serve vulnerable children and families in our community. Thank you Positive Tomorrows for providing education and support to Oklahoma City’s most vulnerable children and families!
